

# HiTD High Torque Drive Belt

**HiTD Synchronous Belt**  
Relative Power +100%

Fenner HiTD Timing Belts are the first generation of HTD metric curvilinear tooth form synchronous belts for high torque drives.

### Benefits

- > Curvilinear tooth improves stress distribution for higher tooth strength
- > Offers a more compact drive than classical timing belt drives
- > Fully approved by all international standards
- > ISO 13050 (International Standards Organisation)
- > Ambient operating temperature -20°C to +100°C
- > Ozone-resistant

### Size Reference

<b>5M HiTD</b>	305 to 2525 mm	<b>8M HiTD</b>	480 to 2800 mm
<b>14M HiTD</b>	966 to 4578 mm		

### Construction

# Fenner®
